# PROGRAMME

## Really Wild Home Education Gathering 2020

### Bushcraft Course Descriptions

**Introduction to Firecraft Ignition** – There are six ways of lighting fire, of getting that first flame. When you are in the wild these skills are important to know. During this session, participants will learn about the six ways and develop their skills with the Swedish Fire steel. If you have used a steel before, this will take your skills to a whole new level.

**Natural Shelter Skills** – ideal for all the family! Learning about why a shelter is needed and how to make one using the materials around you. For little ones, they can make shelters for fairies or little animals. For older children and adults, they can learn skills and try shelter building on a bigger scale for themselves.

**Stalking and tracking games** – ideal for all the family too! Learn about how to find and get close to animals, how to use your eyes in special ways just as our ancestors did and enjoy a game to test your skills which could see you going home wet from our super soakers but with a wonderful smile on your face too.

**Campfire skills – building a great campfire** – This course is meant for those that have already done the introduction to firecraft – ignition course. This teaches you how to source materials properly and how to build different types of fires and how to get them established.

**Crazy Wild foods for Kids** – An exciting forage of amazing foods delivered in a fun and age-appropriate way. Nutrition, safety, and fun all rolled into one!

**Introduction to knifecraft** This is for anyone who has not been taught by Really Wild before, for children and adults. You will learn about knife law, good knife design, safe handling and become comfortable with several different ways of using a knife, creating something that you can use at camp. Aged 6 and above with parents available to help please. *We will limit places but try to accommodate people as best we can.*

**Primitive weapons – sticks and spears** – Learn how to use a spear and join in the competition to test your skills.

**Intermediate knifecraft** - Provided you have completed the introductory knife craft course with us, you can join this one (for children and adults). You will learn new techniques and create another thing to take home. Aged 6 and above and parents please come prepared to help. *We will limit places but try to accommodate people as best we can.*

**Really Wild Olympics** – A short and fun set of games and challenges whilst mums and dads pack up before the finale.

**Getting Lost and Trust Games** – Fun on the field and woods that teach lifesaving skills and great communication.
